## 1-5. Cancelled.

- 6. (Currently amended) A method of treating a patient to alleviate pain treatable with an opioid agonist analgesic, comprising:
- a) administering systemically to said patient an amount of noribogaine or its pharmaceutically acceptable salt; and
- b) concomitantly administering systemically to said patient an amount of one or more opioid antagonists; wherein said respective amounts of noribogaine and said one or more opioid antagonists are effective to reduce or eliminate pain in said patient.
- 7. (Original) The method of claim 6, wherein said opioid antagonist is naloxone, administered to said patient at a dose between 0.05 mg and 0.5 mg for each mg of noribogaine.
- 8. (Original) The method of claim 6, wherein said opioid antagonist is naltrexone, administered to said patient at a dose of between 0.05 mg and 0.5 mg for each mg of noribogaine.
- 9. (Original) The method of claim 6, wherein said noribogaine and said opioid antagonist are administered transdermally.

## Claims 10-24. Cancelled.

- 25. (Currently amended) A method of treating a patient to alleviate pain treatable with an opioid agonist analgesic without addiction, comprising: administering systemically a pharmaceutical composition consisting essentially of an effective amount of noribogaine or its pharmaceutically acceptable salt to said patient effective to reduce or eliminate said pain in said patient.
- 26. (Previously presented) The method of claim 25, wherein said noribogaine or its salt is the sole analysesic agent in said pharmaceutical composition.
- 27. (Previously presented) The method of 25, wherein said noribogaine or its salt is administered to said patient at a dose of between 0.1 mg and 100 mg per kg of body weight.

- 28. (Previously presented) The method of 26, wherein said noribogaine or its salt is administered to said patient at a dose of between 0.1 mg and 100 mg per kg of body weight
- 29. (Previously presented) The method of claim 27, wherein said noribogaine or its salt is administered at a dose of between 1.0 mg and 30 mg per kg of body weight.
- 30. (Previously amended) The method of claim 28, wherein said noribogaine or its salt is administered at a dose of between 1.0 mg and 30 mg per kg of body weight.
